 - namorgha.github.io (Portfolio)

SUMMARY

Full-stack developer with a passion for technology and a background from 1337 School. Skilled in modern web technologies and experienced in building complex, real-time web applications using professional tools and secure deployment methods.

EXPERIENCE

1337 School — Student Developer

Tétouan, Morocco
2022 2025

Intensive, project-based training following the 42 Network model. Self-directed learning without teachers, focused on solving real-world problems. Curriculum ranging from low-level programming in C/C++ to advanced full-stack web development.

Transcendence — Full-Stack Multiplayer Platform

Django JavaScript WebSockets HTML/CSS

- Developed an online Ping Pong game featuring tournament mode and live chat.
- Handled full front-end and back-end development using WebSockets.
- Optimized user experience and performance.

Nanovers.org — Online Social Network

React Django PostgreSQL Redis Docker Nginx SSL

- Developed and deployed a full-featured social platform with authentication, 2FA, real-time chat, notifications, posts, and user profiles.
- Designed a secure and scalable architecture using Docker and Nginx.
- Available online at nanovers.org
